

# The InsurGents

Musical revolutionaries rising up  
against aural oppression

Australia's musical answer to "What's next?" Influenced by the likes of Queen, The Killers, Dire Straits and Sting. On the InsurGents debut album Wallis' vocal abilities move from silky jazz tones to Mercury-esque heights. Your ears are drawn to the depth of Nikolsky's detailed guitar work and cranking attitude with epic solos and melodic riffs. The combination of these two great Aussie musician/producers and the seemingly endless range of special guests and collaborators leaves no stone unturned in creating an atmosphere of musical cinema for the listener. The result is a diverse combination of rock guitar, pop stylings, electronic synths, killer drops, and insightful vocals.

**Genres:** Electronic, Rock, Power Pop, Electro Pop, Synth-Pop, Adult Contemporary.

**Sounds Like:** Daft Punk, Arcade Fire, The album Sting never recorded, Dire Straits for the 21<sup>st</sup> century, Queen, The Killers, Empire of The Sun
